# RIVA: FOR THE DISCERNING.

No other line of accessories is as adaptable as Riva. It excels in providing elegant design, top-quality materials and first-class workmanship. Riva provides a solution for every problem, however challenging. Design-oriented components that can be put together to suit you.

RAILING WITH STORAGE DISH, GLASS AND SOAP DISPENSER

**One of the features of the Riva line is the railing system that can be combined to suit you.** Four glasses and a soap dispenser? Or one glass and a jewellery tray? There are lots of possible variations. They can be combined as the mood takes you and placed either on the wall or free standing in the room.

The great freedom and scope for individual designs are often a deciding factor for customers making a purchase. The short, medium-sized and long railings can be used individually as towel holders or racks for soap or storage dishes, soap dispensers or glasses at the same time – and so adapt perfectly to every need.

The various accessories are also available separately. Special items like a free-hanging towel ring complete the Riva collection.

Regardless of whether you want a cheerful, family bathroom or an puristic, architectural bathroom.
