CHIC: FOR TRADITIONALISTS.

Established products with a new look: the Chic line of accessories was launched half a century ago and is the top selling line in Switzerland. Whether in a private house or a rented apartment, Chic is a standard in Swiss bathrooms because it is good value for money.

Over the years, Bodenschatz has continued to adapt the line to fit the spirit of the age. Contemporary design, clear lines, optimised functions and even sturdier materials are the result.

New variations of the wire basket and grab bar have been added to the series, as has a new glass holder and soap dispenser combination. The tried and tested installation technology, the attractive prices and – particularly important for items that are used from one end of the country to the other – the replacement parts warranty for all previous and new models all remain the same.
